

### **Author guidelines *Trillium GSEV Special Issue***

Thank you for accepting our invitation to contribute to the first issue of *Trillium Extracellular Vesicles*. This journal will be published by the German Society for Extracellular Vesicles ([gsev.org](http://gsev.org)) and Trillium Publishing House ([www.trillium.de/zeitschriften/trillium-extracellular-vesicles.html](http://www.trillium.de/zeitschriften/trillium-extracellular-vesicles.html)). Please carefully read the author guidelines below and contact us for any questions that may arise.

#### **1. Manuscript acceptance**

We exclusively accept manuscripts that have not been published in or submitted to any other national or international journal before. By submitting the manuscript, the authors agree to the present author guidelines, especially regulations concerning copyright and the right to use the content by the *Trillium* publishing house (Trillium GmbH Medizinischer Fachverlag).

#### **2. Summary**

- Manuscripts should be written in a very general manner to introduce the topic to a broad authorship; please avoid jargon and in-depth technical details
- Articles have a typical length of 3-6 printed pages and a maximum of 18,000 characters including spaces
- Article language is British English or American English (please keep to one of these)
- Two weeks after acceptance of the editorial invitation authors send a brief abstract of their work; subsequently, individual deadlines for full submission will be agreed with the editor
- Articles do not mention any commercial products and their suppliers
- All contributions will be peer-reviewed; resulting modifications will be agreed upon by the authors and the editor.
- All authors need to sign an author's contract

### 3. Manuscript guidelines and layout

TEV accepts the following contributions:

- Original articles or technical papers
- Review, perspective and opinion manuscripts
- Conference proceedings

Manuscript length should be between 6,000 and 18,000 characters including spaces (3000 characters/page). Please include an abstract which summarises the main content of the article. Each manuscript may be supplemented by up to 5 illustrative elements (figure, table, scheme, etc) submitted as separate files (JPG, PDF; TIF, EPS with at least 300 dpi resolution). Each manuscript may have up to 50 references (numbered within the text; authors, title, journal, year, page number). Headings and subheadings may be used, but should be brief and concise; abbreviation should be defined upon the first mention but generally kept to a minimum.

The editor reserves the right to shorten and revise the manuscript text upon peer-review. Each author will receive a final version for approval before publication.

For the final printed manuscript, please send us your full name including academic titles, institution, email address and a portrait picture with 300 dpi resolution.

### 4. Manuscript submission

Manuscripts should be submitted before the agreed-upon deadline and by email to the editor-in-chief. Please send your contribution as word-file with separate graph-files.
