SOCIETÀ ITALIANA PER LE VESICOLE EXTRACELLULARI

1st call for the European EV Mobility Fellowship from GEIVEX/UKEV/GSEV/EVIta/ASEV

Scientific Short-term placements in laboratories working on Extracellular Vesicles from Spain, Germany, UK, Italy and Austria.

Postponement of European EV Mobility Fellowships

The **Grupo Español de Investigación e Innovación en Vesículas Extracelulares (GEIVEX)** the **German Society for Extracellular Vesicles (GSEV)**, the **United Kingdom Society for Extracellular Vesicles (UKEV)**, the **Italian Society for Extracellular Vesicles (EVIta)** and the **Austrian Society for Extracellular Vesicles (ASEV)** regret to announce the postponement of the “International Mobility Fellowships”, due to the ongoing Covid-19 pandemic.

We will continue to monitor the situation and consider advice from each National Society’s governmental advice on travel, work and social distancing measures. Our hope is to relaunch the call for Early Career Researchers (ECRs) in the Spring of 2021.

In the meantime, ECRs can view [the list of labs](#) that are available for short term placements, including the skills and expertise available in each one.

It is also not too late for your lab to offer a placement; Note that applying does not commit you and your lab to host an ECR; your details will be available to potential ECRs who would then need to contact you and, if you agree, submit an application to visit your lab. **To become a potential host lab please email your National Society (email addresses below) and include:**

[Name of PI and affiliation](#)

[Summary of Research Interests \(max 100 words\)](#)

[Potential techniques/skills that could be taught to a visiting ECR \(max 100 words\)](#)

[Please indicate if you are willing for this info to be shared publicly \(via emails to the Society members, advertisements on Society websites, social media etc\).](#)

These Mobility Fellowships aim to foster collaborations among members of these Societies. The fellowship (2000€) should cover travel and accommodation expenses for a one-month stay of an Early Career Researcher (ECR; i.e. Ph.D. students or Postdoctoral fellows with less than five years’ experience pertaining to at least one of our Societies) in a different Country of the Host laboratory.

For more information, or to offer your lab as a potential host lab, email the Secretariats of your own National Society:

Secretaria GEIVEX: geivexinternationalmobility@gmail.com
Secretaria GSEV: info@extracellular-vesicles.de
Secretaria UKEV: fellowships@ukev.org.uk
Secretaria EVIta: segretario@evitasociety.org
Secretaria ASEV: andreas.spittler@muv.ac.at

Please stay safe and well.

With kind regards

Hernando A del Portillo
